The steamer *Afridi* left Singapore on the 9th instant and is due here on or about the 15th instant.

The O. S. S. Co.'s steamer *Ulysses* from Liverpool, left Singapore on the morning of the 10th inst., and may be expected here on or about the 15th inst.

The cable from Hongkong to Luzon has been removed from Bolinao and extended direct to Manila. The operations were completed on Friday night by the Eastern Extension Telegraph Co.'s cable steamer *Silvertown*.

A Government notification was issued at Manila on the 31st March imposing nine days' quarantine on arrivals from Hongkong and other ports infected with bubonic plague, the period mentioned to be calculated [illegible]

[illegible] arrived [illegible] days [illegible] other ports [illegible] bubonic plague and that [illegible] distinct from poison. The [illegible] mortuary and a post-mortem examination enforced.

Commander Hastings had some more gamblers before him yesterday morning. On Sunday night Sergeant Macnab raided the coolie quarters at 23, Deep Water Bay, and found about 20 men engaged in playing *pai pat*. They all got off except five, each of whom was fined $3 or 14 days.

Mr. Erich Georg in his Weekly Share List dated April 9th says:—Business during the week has not been very extensive, but in several instances, notably Banks, Docks, Canton Insurances, Into-Chinas, and Reubs a further advance has taken place, and the market for most stocks closes rather firm.

On the information of Inspector Duncan, weights and measures inspector, two Chinese drapers appeared at the Magistracy on Saturday on a charge of having short yard measures. One was fined $25 and the other $10. Two men from Yaumatti were each fined $10 for having

M. Pichon, the new French Minister to Peking, was a passenger by the M. M. steamer *Indus*.

The C. N. Co.'s steamer *Chingtu*, from Australian ports, left Port Darwin on the 11th instant, and may be expected here on or about the 20th instant.

The O. & O. steamer *Belgic*, with mails &c., left San Francisco for this port via Honolulu, Yokohama, Inland Sea, Kobe, Nagasaki and Shanghai, on the 2nd inst.

The maximum temperature last month was 70.8, on the 31st, and the minimum 53.2, on the 10th, the mean for the month being 64.3. The rainfall amounted to 0.17 inch.

At the Magistracy on Saturday five boatmen were each fined $50, or two months, for making fast to the *Prinz Heinrich* as she was going alongside the wharf on the 5th inst.

It is notified in the *Gazette* that Mr. J. Grant Smith has been recognised as in temporary charge of the Peruvian Consulate-General during the absence from the colony of Mr. Felipe S. Mesa, or until further notice.

The P. M. steamer *China*, with mails, &c., from San Francisco to the 23rd ultimo, via Honolulu, has arrived at Yokohama, and left for this port to-morrow morning, via Inland Sea, Kobe, Nagasaki and Shanghai.

We are informed by Dr. Clark, Acting Secretary of the Sanitary Board, that rinderpest exists at the present time [illegible] and along the coasts of [illegible] that every possible precaution is being taken by the officers of the [illegible] to prevent the importation of [illegible] into the markets of this colony.

It is notified in the *Gazette* that H.E. the Acting Governor has been pleased to make the following appointments with effect from the 7th inst:—Captain F. H. Loveband, the West India Regiment, to be Private Secretary; Lieut. T. D. L. Whittington, the King's Own Regiment, to be Aide-de-Camp, vice Captain F. H. Loveband, who temporarily vacates that appointment.

During the week ended 9th April there were 106 cases of plague reported and 87 deaths, of which 21 cases and 17 deaths occurred during the previous twenty-four hours. The Board has now seven gangs at work in the city carrying out house to house cleansing, in consequence of the increase in the number of cases of the disease. During the twenty-four hours ended at noon on the 10th there were 18 cases and 17 deaths reported.

A Chinese named Chan Yee Choi, who was undergoing one month's imprisonment for stealing, committed suicide by hanging himself in his cell on Saturday. An Indian warder last saw the man alive at ten minutes past eight in the morning, and on visiting him again a quarter of an hour afterwards he found him hanging by his trousers strap from the gate of his cell. He at once cut him down. Deceased was admitted into the Gaol on the 5th inst. An inquest was held yesterday, and a verdict of "suicide by hanging" was returned.

A special meeting of the Sanitary Board was held on the 8th April to consider a further report from the Principal Civil Medical Officer concerning the prevalence of bubonic plague at Canton, Whampoa, and Macao, and it was unanimously agreed to recommend the Government to at once institute a medical inspection of all steamers, steam-launches, and passage boats arriving in the waters of this colony from the above mentioned ports. A notification appears in the *Gazette* of the 9th April proclaiming Canton, Whampoa, and Macao infected ports.

At the Theatre Royal this evening Carl Hertz will give the first of his farewell performances, since the last three nights are announced. The management promise for this evening another complete change of programme, including the first production of the new illusion "Mephisto's Target," which recently made a sensation at the Alhambra Theatre, London. An entirely new series of tricks is also announced and new songs by M'lle D'Alton and a complete change on the cinematographe, including the Queen's Diamond Jubilee procession in London, the English Cricketers in Australia, &c., &c. Seats can be secured for Mr Hertz and a change for each night. Another performance takes place to-morrow and also on Saturday evening, the concluding night, Carl Hertz has arranged to play at Canton on Thursday at the Canton Club Theatre, so no performance will be given here either on Thursday or Friday.

"You are altogether too handy with your cane" was the observation which Commander Hastings addressed at the Magistracy yesterday morning to Lance-Corporal Lucena, who had charged one of the boys at Queen's Road Barracks with assault. Private Patrick Hastings said that on going into the coffee shop on Saturday night to buy some cigarettes he saw the Lance-Corporal, who was behind the counter, put his hand to his side. Defendant, who was close to complainant, had a two-pronged fork in his hand. On complainant pulling his trousers down witness saw blood trickling down his side. There seemed to have been a row. An assistant in the coffee shop said he heard complainant scold defendant and then saw him strike him, and on witness endeavouring to separate them complainant hit him in the eye, which was still marked. Defendant had no fork in his hand. Another assistant said complainant came into the shop and asked for some meat. Defendant went for some, and on his return complainant upraided him for being so long away and then assaulted him. Complainant got his injury through falling against some mineral water bottles. Being of opinion that the Lance-Corporal was to blame the Magistrate only bound defendant over for a month in the sum of $10.

The Macao papers publish a long letter from Dr. Gomes da Silva, Principal Medical Officer of Macao, to Dr. Atkinson, Principal Civil Medical Officer of Hongkong, protesting against the aspersions made on the sanitary service of Macao at the meeting of the Hongkong Sanitary Board on the 31st March. The statistics of Macao, Dr. Gomes da Silva says, are more reliable than those of Hongkong, and he gives a table showing the number of cases of smallpox that have occurred since November last, which have appeared in the weekly and monthly returns. As to plague, medical inspection of passengers arriving from Hongkong was instituted and in March two passengers suffering from plague were refused permission to land and were returned to Hongkong. But for reasons not originating in the wish of the Macao authorities, the vigilance exercised this year was less effective than in 1894, when Macao was kept absolutely free from plague while the disease was raging at Hongkong and Canton. The result of the defects in the methods actually employed was that a few suspected cases were found in various parts of the city, especially in the district whose inhabitants are in the most direct and frequent relations with the inhabitants of Hongkong, and, finally, the weekly return of the 27th March registered the first two authenticated deaths from plague that occurred in the city. Dr. Gomes da Silva considers the expressions made use of at the meeting in question as unprofessional and uncivil. Dr. Atkinson, in his letter laid before the Board, said:—"For some months past smallpox and plague have been prevalent in Macao." This Dr. Gomes da Silva absolutely denies in so far as plague is concerned. Dr. Clark said "They (the Macao doctors) change the name. Sometimes they call it typhoid and sometimes eruptive fever." Dr. Gomes da Silva wants to know Dr. Clark's authority for that statement. Mr May's expression—"They knew the slack way they did things at Macao; they had no house to house inspection"—Dr. Gomes da Silva treats with indifference, because as a layman Mr. May's opinion could carry no weight in the scientific world, but at the same time Dr. Gomes da Silva explains that he considers the disadvantages of house to house inspection outweigh the advantages and that Macao is better off without it. "Of all the members of the Board who took part in the discussion," says Dr. Gomes da Silva, "one only, and he unfortunately not a doctor presumably, showed good sense and a desire to arrive at the truth and the truth only," and that was Mr. Ede. Dr. Gomes da Silva is evidently very angry, and, we are bound to confess, not without cause. After Hongkong has infected Macao with the plague for the Hongkong doctors to turn round and cast aspersions on their Macao colleagues is adding insult to

The British steamer *Saint Ronald*, of Liverpool (Capt. Clements), arrived at Colombo on the 24th March, from Saigon, with two of her propeller blades broken. She left Saigon on the 18th March, and the accident occurred five days after, though the exact nature of it could not be ascertained at the time, beyond the fact that the vessel's speed was greatly reduced. After arrival an inspection was made, when it was found that two out of the four blades had broken. She is bound for Dunkirk with a cargo of rice.

A boatman who landed at Quarry Bay at about five o'clock on the evening of Sunday had a rather warm reception from a number of Punti men who were assembled near the wharf. They had previously thrown stones at him, and when he landed ran him into a lodging-house, which they assailed with a shower of stones, breaking about 30 panes of glass. An Indian constable arrested three of the crowd and brought them before Commander Hastings at the Magistracy yesterday morning. They declared that they had nothing to do with the uproar and that they were returning quietly home when arrested. This disavowal, however, availed them nothing, each being fined $10, or 28 days, and ordered to pay $3 compensation.

At about three o'clock yesterday morning a fire was discovered to have broken out at a tobacconist's shop at No. 28, Queen's Road West. The alarm being given the police and a staff of firemen from No. 7 station turned out and also some men from No. 5 station. They found some bales of tobacco on fire and the first floor of the premises, which are two storeys in height, had also become ignited. Having rescued the inmates without much difficulty the firemen set to work to extinguish the fire and to prevent the outbreak affecting the adjoining premises. They succeeded in this, though not before the first floor was burned out and the ground floor considerably damaged. The damage, which is estimated at several hundred dollars, is not covered by insurance. The cause of the fire is not stated.

The Bay of Along with its thousands of rocks, between which lies a labyrinth of channels and natural harbours, is, says the *Avenir du Tonkin*, one of the most singular places in the world. Apart from its southern sun, it completely resembles the Norwegian fjords. It was long an assured refuge for pirates, who could easily conceal themselves in its caves or jungle. In case of war it would certainly be one of the objectives of a hostile fleet, who might possibly attempt to force the passes. It was important therefore to place this weak point on our coasts in a complete state of defence. During his recent stay in Tonkin the Governor-General visited Hongay and the Bay in company with Admiral de la Bedoillère, the Colonel commanding the Artillery, and other superior officers. It was decided that, besides the mobile defence by sea-going torpedo boats already organised, batteries should be constructed completely covering the passes. Work is actively proceeding with this object, and fixed torpedoes are being placed by the Navy in each navigable channel. At the present time access to the Bay of Along may be considered absolutely impracticable by it matters not what fleet, and any attempted landing would prove futile.

A coolie named Leung On was brought up on remand at the Magistracy yesterday on a charge of unlawfully wounding with intent to do grievous bodily harm one Leung Hop, a boarding house keeper living at 35, Stanton Street. According to the evidence of a chair coolie who looks as at the address given, defendant came into the house at about seven o'clock on the evening of the 7th instant, and complainant asked him why he had not paid the $1 rent he owed for a month's lodging. They then began to quarrel and to push one another about. A barber who lives in the same house was sharpening some razors at the time, and defendant snatched up a razor and cut complainant on the neck. Defendant then ran out. The chair coolie followed him and defendant, turning round, struck at him with the razor and cut him on the arm. Defendant was subsequently arrested at 26, Bridges Street by P.C. Faherty, who found the razor in a small tin canister with a lot of chop sticks. Complainant was taken to the Hospital. He appeared at the Magistracy yesterday with his head and neck bandaged. He bore out the chair coolie's statement, adding that as defendant owed him a dollar he tried to prevent him from taking away his bed board. Dr. Bell said that when admitted to the Hospital complainant was suffering from a cut in the neck from the chin to the left ear. Defendant denied injuring complainant but charged complainant and his brother with setting upon him. Defendant was sentenced to six months' hard labour.

REUTER'S TELEGRAMS.

[SUPPLIED TO THE "DAILY PRESS."]

LONDON, 7th April.

SPAIN AND THE UNITED STATES.

Hopes of peace are abandoned. The Spanish Cabinet at a midnight meeting refused to endorse the Queen Regent's promise to Mr. Woodford to issue a decree granting an armistice in Cuba. The Cabinet has informed Mr. Woodford that Spain adhered to her resolve to wait until the insurgents asked for the armistice. Spanish patriotism is aroused and numbers of Spanish shipowners are applying for letters of marque. Privateering will probably be an important factor in the possible war.

FIGHTING IN THE SOUDAN—EGYPTIAN VICTORY.

General Sir H. H. Kitchener with his whole force has attacked the Emir Mahmud in Zoreba. The trenches were rushed in a most gallant manner. The Dervishes stood well and lost heavily. Emir Mahmud was taken prisoner. The British loss was two officers killed and fourteen wounded. The loss of the rank and file is not stated.

THE ZOLA CASE.

PARIS, 2nd April.

The Court of Cassation has quashed the Zola conviction, without referring it to another section, on the ground that it was the Council of War that was defamed and not the Minister. The War Office ought to prosecute Zola.

PARIS, 3rd April.

In reply to a question in the Chamber M. Melino said the Council of War would consider whether it should prosecute Zola.

QUARANTINED AT SHANGHAI.

[SPECIAL TELEGRAM TO THE "DAILY PRESS."]

Shanghai, 11th April.

The *Glenturret* arrived with six cases of plague on board and has been sent into quarantine for ten days at the Red Buoy.

[The *Glenturret*, Captain Webster, arrived at Hongkong from London on the 1st April and left on the 4th for Shanghai.]

SPAIN AND THE UNITED STATES.

President McKinley's message, which was to go to Congress yesterday, would, it is believed, propose the recognition of the new Cuban Republic and, consequently, of Cuban belligerency. This would mean [illegible] with knell of Spanish sovereignty in the island, and it would be for Spain to say whether she would accept the inevitable at once or declare war against the United States and "die fighting." All there is to be war the declaration will have to come from Spain, and there still appears to be some room for hoping that she will retire quietly.

Should war unfortunately take place one of the scenes of action would lie in the Far East, where the United States squadron would make a descent upon the Philippines. The squadron which has for some time past been lying in this harbour, is superior in fighting power to that maintained by Spain in the Philippines, and it is to be further strengthened by the battleship *Baltimore* and revenue cruiser *Hugh McCulloch*, both expected to-day. The British steamers *Nanshan* and *Zafiro* have been purchased as storeships and are now flying the American flag. Hongkong of course would be a neutral port in the event of war taking place, and satisfactory assurances have been given by the United States, we hear, to respect that neutrality. Consequently the base from which the American squadron would have to draw its supplies would not be Hongkong, but no difficulty appears to be anticipated by the Americans, who have presumably made effective arrangements elsewhere. An American vessel with stores is, we understand, expected very shortly.

When the Spanish squadron in the Philippines has been disposed of it is believed that Manila will capitulate without any resistance on the part of the land forces, who, indeed, are hardly capable of offering resistence with the guns in their rear and without fortifications of any consequence. It is reported that three native regiments deserted the other day with their arms.

SUPREME COURT.

9th April.

[illegible]

BEFORE SIR JOHN CARRINGTON (CHIEF JUSTICE) AND MR. JUSTICE WISE (PUISNE JUDGE).

NIP SHEUNG CHOI, APPELLANT, BUT NON RESPONDENT.

Mr. Pollock (instructed by Messrs. Mounsey and Bratton) said this was an appeal from a decision of Mr. Wodehouse, Police Magistrate, on the 3rd January of this year, by which he sentenced the appellant, Nip Sheung Choi, to six months' imprisonment with hard labour. Their Lordships would see that the charge made against the appellant at the Police Court was that she "unlawfully did assault, beat, and abuse one Sai Nun, a girl under the age of 14 years, on the 6th December, 1897, and divers other dates, thereby causing her grievous bodily harm." Their Lordships would see from the face of it that the charge was irregular. The appellant was charged with beating Sai Nun on the 28th December "and divers other dates."

Mr. Justice Wise—But the Magistrate does not find that.

Mr. Pollock—There is no amendment to the charge. As your Lordship has just pointed out, the Police Magistrate in the notice which was issued by him with regard to this finding says that he convicted the appellant for the assault upon the girl on the 28th December, 1897, but I think it is a material fact for your Lordships to know that the charge which was made against the appellant in this case was for assaulting the little girl on the 28th December "and divers other dates," and that that charge was never amended during the course of the proceedings.

Mr. Justice Wise—I do not know that it is necessary to amend it; he has given her six months for the assault on the 28th December.

Mr. Pollock—I think it is an important fact for your lordships to bear in mind—the fact that the charge was assaulting the girl on the 28th December "and divers other dates," and that the charge was never amended.

Mr. Justice Wise—I do not think that that quashes the conviction. It is the conviction we go on and not the charge.

The Chief Justice—You mean it has a bearing on the question of evidence?

Mr. Justice Wise—But it does not make the conviction bad.

Mr. Pollock said he would not argue that, but he argued that this notice which was issued by the Police Magistrate could not in any way correct any errors which appeared on the face of the proceedings.

The Chief Justice—Are you arguing that the whole proceedings were bad because the charge was not amended?

Mr. Pollock said yes; that it was not amended before conviction, and that no mere notice given by the learned Magistrate after conviction would set that right. That was his first point. His second point was this: that if they were to consider the proceedings as bound down to the 28th December the learned Magistrate improperly admitted evidence as evidence of an assault on the 28th December which ought not to have been legally admitted as evidence.

Mr. Justice Wise—Of course that is the point. He has given her six months for beating her on the 28th December, and the medical evidence referred to before the 28th.

Mr. Pollock said that that was the main point upon the merits of the case.

The Chief Justice—We won't trouble you further. You are applying for leave to serve a motion.

Mr. Pollock—There is a point, and that is this: My contention is that we are entitled to ask your Lordships, in view of the fact that evidence has been improperly admitted, to say that the conviction ought to be quashed altogether.

The Chief Justice—You are moving the Court on certain grounds, and your application is for leave to serve notice of that motion on the respondent.

Mr. Pollock—Our application is for leave to appeal against the decision of the magistrate.

The Chief Justice—Of course the magistrate gives leave to appeal, and apparently under the ordinance you come before the Court for a motion. Leave to appeal has really been already granted. All the Court apparently has to do is to allow you to serve a motion on respondent.

This point was argued at some length, Mr. Pollock stating that notice had already been served upon the respondent and also upon the Registrar. Ultimately it was decided that the course suggested by the Court should be adopted.

THE AFFRAY AT EAST POINT SUGAR REFINERY.

DEATH OF THE INJURED COOLIE.

INQUEST ON THE BODY.

Yesterday at noon Commander Hastings held an inquest at the Magistracy touching the death of Cheng Lo Choi, the coolie who was injured in the affray at the East Point Sugar Refinery on the evening of the 6th inst.

Hubert John Gidlies said:—I am the foreman at Jardine's Sugar Refinery at East Point, where I have been employed about eight months. I was previously a warder in Victoria Gaol, and before then was in the Hongkong Police Force, retiring on a pension. On the night of the 6th instant, at 11.50, I was in the "fill house" at East Point and went to the number board to see what men I had on for the second night duty. They are supposed to be in at 12, but they generally begin to come in at about 20 to 12. They work from 12 to six. I am on for eight hours. The coolies have six hours on and six hours off. They really do 12 hours in the 24. I work from ten to six. I was in a stooping position looking to see the numbers when I was struck from behind, receiving three or four blows from different persons. They struck me with their fists at first. At the same moment I heard some one call out "Ta" (meaning "beat"). I turned round and saw between 20 and 30 coolies come from the godown towards the fill house. They were armed with shovels and were calling out "Ta." The place had been lit up but the gas had been turned down. I don't know whom by. The gas was turned down instantaneously as the coolies rushed at me. I went behind the donkey engine, and as there was nothing else that I could protect myself with I picked up the wooden spade produced. The crowd was between me and the exit, and I could not get out. I edged towards the door leading to the pan-loft to prevent the coolies from getting behind me. As I stood in the door-way leading to the pan-loft seven or eight men struck at me with shovels. One was No. 72, who was convicted here the other day. He struck me on the head but I parried the blow and by so doing was struck with the flat of the shovel instead of the edge. While warding off this blow I struck out with the wooden spade and hit deceased, who was a little ahead of the others, on the head. Deceased had a shovel in his hand and was striking at me. These shovels are kept in the two upper lofts, and the coolies must have brought them down on purpose to attack me. Deceased dropped when I struck him and the others drew off for a moment. Just then Mr. Lee came down from the pan-loft and presented his pipe over the bannister at the coolies, threatening to shoot them if they did not desist. They then cleared out of the fill-house and drew up in front of the office, deceased going with them. There are 47 coolies working at one spell in the fill-house and 14 in the godowns. I was the only European in the fill-house. Mr. Lee is in the pan-loft and has one boy working with him. The only other European is Mr. Cameron, a sugar boiler in the pan-loft on the new side. At this time the old watch had not gone and nearly all the Chinese had come, so that there would be about 120 Chinese on the premises, and only three Europeans. I cannot understand why the men should attack me, except that I checked two men the previous night for leaving work before their time. I saw both of them on the night I was attacked, one of them shouting "Ta." After the disturbance, about 12 o'clock, I and Mr. Rogers (the manager) went into the godown, where we saw deceased. He was sat down. Mr. Rogers spoke to him and he got up and went away. Deceased's head was wrapped up. About a quarter to five on the following morning I heard some coolies talking and I found they had brought deceased in and placed him on a long stool in the hall just outside the manager's office. I called the manager, and we got deceased removed to the Hospital. I did not hear the man speak. One of the coolies—the one who had been convicted—took a shovel up to me about two months ago because I took up the wrong basket, but he did not strike me. Dr. Bell saw [illegible] at 7.30 a.m. on the 7th inst. [illegible] committed to the Government Civil [illegible] dying condition. He had [illegible] and about 11 o'clock the same morning made a post-mortem examination in the afternoon. There were no external injuries except the scalp wound. Underneath the wound the skull was fractured right across. There was a large blood clot on the left side of the brain. The cause of death was hæmorrhage, the result of the fracture. An ordinary shovel like the wooden spade produced might have caused the wound. The result would have been the same had the man been attended to at once.

James Lee said: I am a sugar boiler at East Point Refinery. I have been there about 12 months. I was in the pan-loft at ten to 12 on the evening of the 6th instant, when I heard a noise proceeding from the room below. I ran to the stairs, and on looking under the bannisters saw 25 or 30 coolies armed with shovels and bamboos attacking Mr. Gidlies, who was trying to keep them back with a wooden spade like the one produced. I could not see clearly as the gasses were low at the time. I shouted out and then ran to my jacket and took out my pipe, which I presented at them, this causing them to clear away. I did not see any blows struck except those aimed at Mr. Gidlies. I saw that his hand was cut and his head swollen, and I remarked, "I'm surprised you are not killed." I only had a pan-boy upstairs with me.

Alexander Rogers said—I am manager at the East Point Sugar Refinery, where I have been employed for about 19 years. I was in my own house about 12 o'clock on the night of the 6th instant when I heard a noise over at the works. I ran over and outside the refinery I saw some coolies who were making a noise. I called out to them as I was going along "What's the matter," and they ran off towards the main gate. I went into the part of the refinery where Gidlies should be, but did not see him there. I then went to the flat above, where the pans are, and found him there along with the sugar boiler, Mr. Lee. I asked him what was wrong and he told me he had been attacked by about 20 coolies. His hands were bleeding and he was holding his head. We went downstairs and in the godown—a building outside the proper refinery—we saw a man sat down holding his head. I asked Gidlies whom he was, and he replied that he was one of the ring-leaders. I told him to get up and go away and the man went away. There was not much light in the place and I did not think he was wounded. About half-past four the following morning a man whom I took to be the same was brought and laid down on a seat in my hall. I sent for the police at once, and the man was taken away. We have little disagreements now and again with the coolies, but they don't come to fighting.

A Chinese constable said—On the 7th about 3.45 a.m. I was on duty at Jardine's Bazaar when an Indian came and took me to Jardine's Sugar Refinery. I saw deceased on a bed rolled up in a blanket. I spoke to him but he did not answer. I delivered him alive at the hospital.

Wong Foo, a prisoner in Victoria Gaol, undergoing three months' hard labour for assaulting Mr. Gidlies on the 7th instant, said—My number in the East Point Refinery was 72. I know not ing about the affair. I was going to my work at the time. There was no fighting when I got into the refinery. I did not see deceased.

Lam Ma Sing said—I am employed at Jardine's Sugar Refinery. On Wednesday night last week I was working in the refinery when a man sent away from his work. When he returned Mr. Gidlies assaulted him, saying that he had been away too long. Mr. Gidlies afterwards took up the wooden spade and struck him with it on the head. The man fell to the ground and bled. Mr. Rogers came and saw the man lying on the ground down below. I work upstairs. I heard a great noise and I ran down. Deceased was making a great noise just as he was about to be struck. No one else called out. We left the man there until about four o'clock, and then when we saw he was going to die we took him to the office. I want your worship to see into this matter.

Tang Ho said—I am a sugar scraper in the refinery. I was there on the evening of the 6th inst. A man who was working with me left his work at about 11.30. He came back and on his return he was assaulted by Mr. Gidlies. I was upstairs when I heard somebody call out, and as soon as I got down I saw Mr. Gidlies take up the wooden spade and strike deceased on the head with it. I don't know what had happened before I heard the cries. The men were then all quietly at their work, deceased being the only one who was crying out. After he had been struck on the head deceased fell to the ground and Mr. Gidlies ran away, going to a place just opposite. Myself and three others went up to deceased and asked him what was the matter, and he replied that he was one of the ring-leaders. I told him to get up and go away and the man went away. There was not much light in the place and I did not think he was wounded. About half-past four the following morning a man whom I took to be the same was brought and laid down on a seat in my hall. GREAT EASTERN AND CALEDONIAN GOLD MINING CO., LIMITED.

The following report has been received from the Manager at the mines:—

Mount MacDonald,
14th March, 1898.

Great Eastern Main Shaft has been sunk a further depth of 11 feet, making a total depth from brace of 152 feet. The country in the bottom of the shaft is softer and better shooting ground, but carries more water than the harder country. Should the good shooting ground continue down to the 200 feet level, we will then be able to do the cross-cutting at a very small cost.

Caledonian Main Shaft is down a further 10 feet, or a total depth of 103 feet from brace. We have now much better breaking ground, but still a great lot of water. During the last fortnight the average quantity of water baled has been over 7,000 gallons per day, but this is a great gain on the previous quantity of 18,000 gallons. When the old workings are drained I expect to have little water to contend with. Such a quantity of water of course gives us a lot of dead work, and makes the sinking rather costly, but this trouble once over, the shaft should go down at a reasonable price.

Zulu Main Shaft is now down to 103 feet from brace. During the last five days no sinking has been carried on owing to a stage having been put in at the 70 feet level, and the men are now driving south on the reef, which is 18 inches wide, to get out a few tons of quartz to be sent to Messrs. Knox, Schlapp & Co., Melbourne, for an expert report as to the best mode of treatment, very important to us, as the stone carries a lot of rich mineral, not treatable by a simply battery. This opinion will come to hand quickly, and be an independent one from Krupp. As far as can be seen the Zulu reef is highly payable. All the stone taken out so far will yield not less than two ounces per ton, but of course before the extent of the reef claims proved a fair amount of development work must be done. I can only say the prospects up to date are very good indeed. I am sure that if the Zulu Rise and Shine, and Bank of England run on the same line of reef, were well opened up, they would prove a first class proposition, counting the probability that they would form one solid reef at a depth.

Prospecting Shaft Gold Reef.—This has been sunk a further depth of 11 feet, making a total depth of 107 feet from brace. There is nothing fresh to report in this shaft. It is making a little more water, which in this case may be taken as a sign of being close to a lode, but we are still in broken country, and the water might come from cracks or floors in the rocks. The good main walls with a very even underlie are still going down with the shaft, which gives one good hopes of cutting the reef in this part of the property. I think we are too shallow yet for the chutes have all a very strong dip north on the main line of reef.

Surface Works.—We are enlarging the stable and making improvements to the store room prior to the setting in of the cold weather.

Dam.—The contractor starts to-day.

SAIGON.

[FROM OUR CORRESPONDENT.]

Saigon, 7th April.

There have again been a good many fires in Saigon and in the native town of Cholon and Insurance Companies have suffered heavy losses. It is now contemplated to establish a special fire brigade, and steam fire engines have been ordered, as the hand pumps of the Chinese brings are wholly insufficient. At the Cholon fires the fine steam fire-engine of the Ban Tou Guan rice mill is always first on the spot and under the direction of Mr. Lim Keng, the manager, and Mr. Richardson, the chief engineer, does immense service.

Quarantine of nine days, including the voyage, has been established on all vessels arriving here from your port. This seems to happen now every year. You should watch more strictly the movements of vessels and passengers in your harbour.

The Government has established some new taxes. A three-cent stamp must now be affixed to each tea-box packet of matches. Dealers, profiting by this, have increased their price, and a packet now costs ten cents retail instead of three cents as formerly. Salt is now a monopoly and is sold at $1.65 a picul or two cents per kilo.

The Messageries Maritimes steamer *Arethuse*, which has been employed on the branch line between Saigon and Haiphong, has been sold by auction for $24,000, the purchasers being Shanghai people.

The demand for rice, especially for Japan, continues as strong as ever, and prices are going up, notwithstanding a fine crop.

THE GYMKHANA.

The following are the weights for the Mile Handicap to be run at Saturday's Gymkhana:—

ONE MILE HANDICAP, for China ponies.

Forced for ponies entered at this meeting. 1st prize, $80; 2nd prize, $20. Entrance $1, if left in after 2 p.m. on Wednesday, 13th April, 1898, $2 extra.
